

Home Features

With irresistible charm and poise this home welcomes you and your guests. Hospitality in front and privacy in back is the nature of this design. A large porch, a grand living/dining room and an ample kitchen greet everyone as they enter the home. The tropical breezes carry through to the large screened porch that separates the front of the house from the bedrooms and the master suite that offer a quiet escape. Consider adding a pool or courtyard to further expand your outdoor living space.
